Moon Enters 9th House

Natal: John Lennon

Fleeting glimpses of larger things may come within view, but without time to follow up fully. Best to take notes on most relevant generalities, see how it may have changed by the same time next month. Big things take time.

Moon Conjunction Mercury

Time to be quick and make smart deals as the intellectual pace around you quickens. Where you can put emotions into words, you will be at the top of the heap, as that's going to be the way to connect and build on your connections right now. Feelings get aired and a greater sense of control and satisfaction results.

Mars Enters Virgo

Focused energy is the name of the general game for some time to come, with measured and targeted tasks the preferred approach. Efforts that benefit from attention to detail are favored, and generalists may be sidelined until the current assignment is completed. Get a copy of the rules (you probably won't have to look far) and play along.

Moon Square Uranus

Dogfights and catfights may be happening almost anywhere, so make it a point not to join in. Simply agree to disagree and move on, as it's easy to get caught up in pointless rows. Projects and relationships begun now will also tend to fall into disarray, so back off a bit until you can take a second look.

Moon Enters Cancer

Expect feelings to get a little more intense for the next few days, particularly due to bottled-up emotions that people are trying to keep a lid on. It's hard to say what you mean when there's so much expectation to deliver on every hand. Best to be utterly sincere but not say too much that might set off hidden nerves or be seen as space invasion.

Moon Conjunction Sun

New Moon is the very time for giving up the old and ringing in the new, re-bundling your energies into another package. Commitments made now are intense, all-eggs-in-one-basket, but give them time to develop and to get their bearings. Time for laying cornerstones, the walls and rafters come later.

Moon Opposition Jupiter

Rip tides of emotion swing and sway today, so make sure you don't get carried away in the undertow. The surroundings are turbulent but highly positive, so in order to pick up on them you may have to tighten your focus -- be ready to hop on board as the train rushes past. When it's over, it leaves everyone breathless.

Moon Conjunction Venus

Charm abounds and an atmosphere of love and desire allows for all sorts of pleasantries and can provide the foundations of lots more like it to come, if you go for it now. Directions begun today can be the start of great friendships, beautiful handiworks, and achievements that bring both

wealth and love.

Moon Enters 10th House

Natal: John Lennon

Quick lunar transit brings passing notoriety, an unexpected word from without that lets you know they're watching you, and not always when you're expecting it. When you raise your flag, anyone can see it, and often does, but not often with import.

Moon Opposition Moon

Natal: John Lennon

This internal full Moon makes you best inclined to gather the fruits of the last couple of weeks and making the best of the harvest. Projects should have adequate input by now and be winding toward completion, filling in details for next two weeks. The crop is out, now it's time to start tending to the harvest.

Moon Enters Leo

Creative and uncensored feelings can make for an almost party atmosphere if you follow the flow and avoid the usual impediments for the next couple of days. The world is looking for a lover, and you can put yourself into that picture however you choose. Make a breakout, or just let the rising tide carry you along.

Moon Opposition Neptune

As soon as the fog lifts, it's back again, and trying to steer a straight course will be hard for all, so double-check information and go slow to avoid collisions. Misunderstood and/or misstated feelings should be expected, so hurt feelings can be avoided. The ground is soft underfoot, so step cautiously.

Moon Enters 11th House

Natal: John Lennon

Personal acceptance is a step beyond the norm and it gives you a boost, a flirtation with excellence that can fill out if followed up after. If commitment backs off, however, let it -- it's not something you can pin down if it chooses to flee.

Moon Enters Virgo

If you regularly pick up each stitch, you won't be tripped up over the next few days. If not, watch out for entanglements in small print and minor details that suddenly loom larger if you overlook them. The feeling of a job well done awaits you, but only after you do it. If you're ahead of expectations, you'll have it locked up tight.

Moon Conjunction Mars

Rash moves, overblown feelings, emotional conflict, and anger can be lurking around the corner, so today's a good day to take it easy and not push, or be pushed, too far. Similarly, don't let high energy push you in where angels fear to tread -- overconfidence can get you into hot water. Count to ten, then go ahead.

Moon Conjunction Saturn

The emotional waters are a bit on the cool side today and if you encounter the cold shoulder, don't be surprised. Put a toe in the water before you jump in or you might run into the big chill. People taking

themselves too seriously abound, so try not to be one of them. Take it all with a grain of salt instead.

Sun Square Sun

Natal: John Lennon

Trying to stay on top of things this time of year may have you a little stressed because of extra ego drain. When in doubt, however, just drop out and give it a rest. Too-hot pursuit won't bring you any closer than sitting back, taking a breather, and diving back into the fray refreshed with a new vision.

Moon Opposition Uranus

Moods swing erratically and otherwise stable situations may suddenly fall apart when you least expect it, so whatever you are doing make sure you have a couple of backup plans just in case. Don't return harshness in kind, as it is only passing and now is not the time to make or take offense. Choppy waters.

Moon Enters 12th House

Natal: John Lennon

Skulduggery may be afoot and you may get just enough of a peak to take precautions, but not enough to be really sure of its focus. Sudden decisions now can turn to disaster easily, so cover perimeters, wait for the action.

Moon Square Mercury

This is probably a good time for all parties to back off a bit and make sure that what looks like a great idea isn't actually a hidden misunderstanding. What feels right may be impractical or misleading, so a second look is in order to avoid having to reposition later. Don't believe all you hear, or all you say.

Moon Trine Moon

Natal: John Lennon

The Moon's got you in tune from morning 'til noon, and well into the afternoon. Your intuition is on the mark and your reactions fit in with all around you. It's easy to agree, and most people will if you let them, so spread as much good will as possible. Agreement now will be a benchmark for cooperation down the road.

Moon Enters Libra

Give and take are what's expected for the next couple of days, so expect to mix it up if you're going to make much headway. That doesn't mean conflict, just active participation and the willingness to change and be changed from moment to moment. It's what both love and war (and business) are made of, you choose the game, and the playing field.

Moon Square Jupiter

It's easy for everyone to get too wound up in their feelings and you could find yourself chasing your tail in circles until you fall down. Even if you think you've got a big one on the hook, cut your line if it takes too long to reel him in. Diminishing returns can tire everyone out, turn hope to disappointment, so avoid them.

Moon Square Sun

Uncertainty and shifting grounds can mark the day's outcomes, and confidence may retreat in the face of a challenge. Confrontation is the wrong game to play, but pulling out entirely is equally unsuitable. Make judicious compromise now and the resulting situation will improve, but don't chase diminishing returns.

Moon Enters 1st House

Natal: John Lennon

Monthly lunar peak gives momentary boost to ego and confidence, a brief reminder of how good you can be when you're on. Observation now will let you do it with greater regularity -- shine, but remember how you did it so it becomes a habit.

Mercury Enters Cancer

What folks are saying and thinking is a lot closer to their hearts than you or they may think, so verbal sparring can get taken too seriously in the next few weeks. People mean what they say a little too much, and say what they really mean too little. There's a cry over the milk, spilled or not, so speak judiciously, with sensitivity.

Venus Enters 10th House

Natal: John Lennon

Good things accrue as people are saying nice things about you and appreciating the efforts you have put in to make yourself a success. Go with it, but don't let it go to your head. Sincerity and a little modesty will keep them screaming for more.

Moon Square Venus

Watch out for conflicting goals and energy-wasting diminishing returns today. What may seem like deceit could be just mixed emotions, or vice versa. Rather than jump into a stewpot, let it boil a bit and see if it simmers down. When all get more certain of what they want, it will be easier to move in concert together.

Moon Square Moon

Natal: John Lennon

It may be easy to get into a debate, as there's an edge of contentiousness upon you, but if you do, make it about issues and not personalities. Your first instinct or reaction may need refining, so don't put your bets on the first hand you are dealt. Patience with yourself and others will reveal what cards to play.

Moon Enters Scorpio

The plot thickens, or seems to, for the next few days, as an atmosphere of open intensity and perhaps hidden agendas raise passions and lower shades to facilitate what goes on behind closed doors. Shallow and breezy won't do, but when everybody's trying to play the heavy, take the melodrama with a grain of salt.

Moon Enters 2nd House

Natal: John Lennon

Lunar finance peak brings a flurry of monetary activity, perhaps a quick find or mini-crisis, but it passes quickly. Keep its brevity in mind so you don't lay heavy bets on a passing fancy, unless other longer-range cycles are much in focus with this as trigger.

Venus Enters Leo

A real party-time element comes to the fore for the next few weeks, and the general taste is for more enjoyment and less restriction on how you get it and who shares it with you. Good taste may not be the description, but if it tastes good, mangle down and add a little spice while you're at it. Life's a play, play along.

Moon Square Neptune

Mirages may pop up at any time, even if you're not in the desert. Feelings and internal visions can get muddled, and emotional miscommunication, either unintended or on purpose, may get in the way. Misentanglements can snowball, so be ready to cut loose and try again later. Avoid long-term commitments.

Moon Sextile Moon**Natal: John Lennon**

Your sense of the situation is probably pretty accurate, especially if you're telling yourself to let sleeping dogs lie, and allow general agreement to form without making a big deal of it. Exude emotional stability (or at least pretend to) and you'll find yourself brought in as expert and friend.

Moon Enters Sagittarius

The first reaction all around is a good laugh, especially when people are surprised by the open truth. For the next couple of days, honesty is a pleasure and has crowd appeal, too, so don't be afraid to speak out without taking yourself too seriously. Big ideas are favored, but may be slim on details.

Moon Square Saturn

Sour grapes can be today's flavor, and if you run into something that displeases, just drop it -- don't push it past the edge. People are feeling insecure, so avoid encouraging any negativity you encounter. New directions are not in order, as they won't go far, so wait just a bit longer to start your engine.

Moon Square Mars

Feelings and actions at cross-purposes make this day's blank slate one that you might not want to write much on, but just write it off. Under any circumstances, don't be hasty, and try not to repeat yourself too many times because you didn't hit the mark with the first shot. Accept uncertainty, and certainty will arrive soon enough.

Moon Enters 3rd House**Natal: John Lennon**

Telephone storm, hasty social get-togethers, and communication overloads come and go. A good time to get quick points across with maximum brevity so it all fits in and is clear in the future -- wasted words come all too easy here.

Moon Square Uranus

Dogfights and catfights may be happening almost anywhere, so make it a point not to join in. Simply agree to disagree and move on, as it's easy to get caught up in pointless rows. Projects and relationships begun now will also tend to fall into disarray, so back off a bit until you can take a second look.

Mercury Trine Mercury

Natal: John Lennon

Anything you say can and will be used to favor you, so clear the channels and get your message across. It is particularly easy to understand and be understood in clear and uncertain terms, without delay and without argument. Make yourself a conduit of understanding within your personal network.

Moon Enters Capricorn

Everybody is into getting down to business for a couple of days, though that may not guarantee any business gets done. It's all about the proper attitude, however, so be cautious how you let your hair down, lest you be thought too frivolous. Showing all your feelings isn't the happening thing, for the moment, so tuck it in and toe the line.

Moon Opposition Mercury

What is said and what is felt may not at all be the same today, so watch out for inner contradictions coming from those around you. Putting pen to paper may mean a rewrite down the line, so be careful what you sign, and intentions and reality may not be on the same page. A better time for winding things up than diving in.

Moon Conjunction Jupiter

This most fruitful day has the potential to give birth to all kinds of positive ideas and feelings -- or simply to give birth, literally. Emotions burst out into laughter or song, playfulness abounds, and there can seem like there is no limit to what's out there for you. Take the ball and run with it now and you'll go far.

Moon Opposition Sun

Full Moon brings fruition, but also high emotional tides; what you do now may turn out to have been overdone when you look back on it. Deals sealed now may swing erratically later on, but if kept under control will be fat and fruitful. This is the time for plucking the fruit from the tree, not planting one.

Moon Enters 4th House

Natal: John Lennon

An eye to your back-up, extra fuel tanks, and general supply lines marks this lunar transit -- making sure that things are in control back on the farm (they may let you know, for sure, at this time!). Resolving issues at your rear allows for the next advance.

Moon Conjunction Moon

Natal: John Lennon

A good time to wind up projects, particularly emotional ones; this point of completion bears the next month's beginnings and allows you to regear to start things up anew. Look ahead at the next few days to see how quickly to reengage or just take a break. Consult your Lunar Return chart to see what the next month will bring.

Moon Enters Aquarius

Being all things to all people is what it's about for the next few days, which can cramp those with a one-on-one heart-to-heart style. Cool sincerity is in the air, and lukewarm may be mistaken for (or preferred to) hot. A great time for negotiations, but you may want to put off headlong passion until

there's more fuel for the flame.

Feelings and desires may tug and roil around you, and trying to cut an even balance may be a challenge. Today's beginnings may mature into tomorrow's turmoils, so don't fly off the handle and don't jump into something you're not sure of. Let the waters settle until tomorrow, then decide on it.

Sun Enters 10th House

Natal: John Lennon

Solar career cycle peak here places emphasis outward to career development and reputation building, sparked by positive feedback from the outside. Good press at this time should be recorded, preserved for lots of mileage throughout rest of the year's proceedings.

Moon Conjunction Neptune

A dreamy state of affairs marks the surroundings and it may be difficult to pin things down or get anyone else to, either. Fantasy is favored, along with speculation, hopefulness, and prayer. Anything you try to formalize won't stay that way, so it's a better day for imagination than concrete efforts.

Moon Enters 5th House

Natal: John Lennon

This is a good time to let your hair down and enjoy before someone else lets it down instead. Let urge carry you, as tight schedules will get snarled if you fight it. R&R is not just time off, its renewal, putting more in the pipeline on return.

Moon Enters Pisces

Shifting sands of feeling abound for a few days, which make hard decisions difficult but ferreting out intuitive revelation easy. You won't find so much hard commitment going around, but the soft underbelly of hidden feelings and backdoor admissions are open to the touch. Probe gently, find the waiting pulse.

Moon Opposition Saturn

The environment is running hot and cold today, and just as you think you're warming up to someone, they can suddenly turn negative. Similarly, projects undertaken today can turn out ambivalent and hobbled down the line, so wait, if you can, to make commitments. That, in itself, is exactly what's in the air.

Moon Opposition Mars

Seesaw emotions with energies running high make for choppy waters today, so avoid hasty choices or impulse buying. If tempers flare, just don't go there, spare yourself and others the hassle. Commitments made now will tend to partake of this atmosphere, so have the patience to wait a little before moving ahead.

Sun Enters Leo

Expect a more open-handed game to prevail for the next month or so, as spontaneity suddenly becomes refreshing and a little fun and levity is more than welcome after a time of overrated self-seriousness. Previously raw

nerves become more tickly and laughter bubbles out when you drop the dread of anticipation and just let it happen.

Moon Square Jupiter

It's easy for everyone to get too wound up in their feelings and you could find yourself chasing your tail in circles until you fall down. Even if you think you've got a big one on the hook, cut your line if it takes too long to reel him in. Diminishing returns can tire everyone out, turn hope to disappointment, so avoid them.

Lots of advice, attempts to influence you can co-opt your direction, but hold your own only if you really think appropriate -- the other side might be right, and now's the time to try it out without long-term commitment.

This is probably a good time for all parties to back off a bit and make sure that what looks like a great idea isn't actually a hidden misunderstanding. What feels right may be impractical or misleading, so a second look is in order to avoid having to reposition later. Don't believe all you hear, or all you say.

It may be easy to get into a debate, as there's an edge of contentiousness upon you, but if you do, make it about issues and not personalities. Your first instinct or reaction may need refining, so don't put your bets on the first hand you are dealt. Patience with yourself and others will reveal what cards to play.

There's buzz going on about you that you may not even be aware of, so put your ear to the ground and try to tune into it. It's a great time for publicizing yourself, as others are more than willing to talk about you -- just make sure they're saying what you'd like them to.

Moon Enters Taurus

The next couple of days can be solid launching ground for anything you choose to embark upon, especially if it's down to earth to begin with. The time to be hasty or flighty has flown, the atmosphere favors practical beauty, the grace of being in touch with nature itself. Simplicity works, traditional fare is ever elegant.

Moon Square Sun

Uncertainty and shifting grounds can mark the day's outcomes, and confidence may retreat in the face of a challenge. Confrontation is the wrong game to play, but pulling out entirely is equally unsuitable. Make judicious compromise now and the resulting situation will improve, but don't chase diminishing returns.

Mercury Enters Leo

There's a sense of fun in just chatting over the next few weeks, and the details of what's said are less important than originality and creative spirit. It's a time for birthing ideas, not putting them through school, so join in with the general creative urge to talk things out. For once, for the moment, it's the feeling that counts.

Moon Square Venus

Watch out for conflicting goals and energy-wasting diminishing returns today. What may seem like deceit could be just mixed emotions, or vice versa. Rather than jump into a stewpot, let it boil a bit and see if it simmers down. When all get more certain of what they want, it will be easier to move in concert together.

Moon Enters 8th House

A quick stab at digging out that extra piece of research, evidence can provide the final piece of the puzzle. Facts that are hard to find can be rooted out and put a new light on things, not only on the outside, but within.

Moon Square Neptune

Mirages may pop up at any time, even if you're not in the desert. Feelings and internal visions can get muddled, and emotional miscommunication, either unintended or on purpose, may get in the way. Misentanglements can snowball, so be ready to cut loose and try again later. Avoid long-term commitments.

Moon Trine Moon

The Moon's got you in tune from morning 'til noon, and well into the afternoon. Your intuition is on the mark and your reactions fit in with all around you. It's easy to agree, and most people will if you let them, so spread as much good will as possible. Agreement now will be a benchmark for cooperation down the road.

Moon Enters Gemini

Words abound and messages fly for the next couple of days, when talk will be cheap but follow-through may not be. It's a good time for making new contacts and developing old ones, and for putting your finger on feelings that have been waiting the right kind of expression. Say what you mean, but don't be afraid to change it, refine it, on the fly.

Moon Square Saturn

Sour grapes can be today's flavor, and if you run into something that displeases, just drop it -- don't push it past the edge. People are feeling insecure, so avoid encouraging any negativity you encounter. New directions are not in order, as they won't go far, so wait just a bit longer to start your engine.

Moon Square Mars

Feelings and actions at cross-purposes make this day's blank slate one that you might not want to write much on, but just write it off. Under any circumstances, don't be hasty, and try not to repeat yourself too many times because you didn't hit the mark with the first shot. Accept uncertainty, and certainty will arrive soon enough.

Moon Enters 9th House

Natal: John Lennon

Fleeting glimpses of larger things may come within view, but without time to follow up fully. Best to take notes on most relevant generalities, see how it may have changed by the same time next month. Big things take time.

Moon Square Uranus

Dogfights and catfights may be happening almost anywhere, so make it a point not to join in. Simply agree to disagree and move on, as it's easy to get caught up in pointless rows. Projects and relationships begun now will also tend to fall into disarray, so back off a bit until you can take a second look.

Moon Enters Cancer

Expect feelings to get a little more intense for the next few days, particularly due to bottled-up emotions that people are trying to keep a lid on. It's hard to say what you mean when there's so much expectation to deliver on every hand. Best to be utterly sincere but not say too much that might set off hidden nerves or be seen as space invasion.

Mercury Square Mercury

Natal: John Lennon

A word to the wise: getting the final word on anything will be virtually impossible, and no matter how tight your argument, loose ends turn up that won't be silenced. Go for the first word, and stick with positive words, but leave the last word for later. When things expectedly get over tangled, your response should be, in a word: enough!

Moon Opposition Jupiter

Rip tides of emotion swing and sway today, so make sure you don't get carried away in the undertow. The surroundings are turbulent but highly positive, so in order to pick up on them you may have to tighten your focus -- be ready to hop on board as the train rushes past. When it's over, it leaves everyone breathless.

Quick lunar transit brings passing notoriety, an unexpected word from without that lets you know they're watching you, and not always when you're expecting it. When you raise your flag, anyone can see it, and often does, but not often with import.

Moon Opposition Moon

Natal: John Lennon

This internal full Moon makes you best inclined to gather the fruits of the last couple of weeks and making the best of the harvest. Projects should have adequate input by now and be winding toward completion, filling in details for next two weeks. The crop is out, now it's time to start tending to the harvest.

Moon Enters Leo

Creative and uncensored feelings can make for an almost party atmosphere if you follow the flow and avoid the usual impediments for the next couple of days. The world is looking for a lover, and you can put yourself into that picture however you choose. Make a breakout, or just let the rising tide carry you along.
