The Lunar Eclipse

An Eclipse of a Full Moon is a full moon in high focus. A time of revelation when the message is particularly strong and powerful. When there is little to do but observe and absorb as much of what is occurring around you as you can. Look to the area of your chart where the moon is, it can have a special importance.

Frederick Chopin: The Lunar Eclipse in Your Chart

You may find you could use a little more space at home as everyone there, including yourself, is taking up a lot more psychic space than usual right now. That can be claustrophobic and you can get on each other's nerves -- or you can use it as the opportunity to connect more by opening that personal space and letting people in. Or, you can just get out of the house and take a break from it all. Whatever you choose, you will find yourself with matters coming to a head and you'll be making conclusions about just how well your internal game plan is working out. Literally and figuratively, good fences make good neighbors, but only when located strategically. Time to finish yours, test it.

Moon in 4th House

Obstacles to self-discipline or to your sense of organization may appear. You could be frustrated by someone in this regard, or external events might pile up and be thrust upon you. Authorities and red tape may stand between you and your goals.

Sun Opposite Saturn

A good time to consolidate and organize your affairs, rearrange your living situation. You could be seen by others as just the person to be put in charge of some project requiring a conservative mind. A tendency toward isolation and starkness.

Moon Conjunct Saturn

A clear-minded insight into your plans and methods is available to you. A very good time to communicate your goals and put them into words. A good time for decisions.

Mercury Sextile Jupiter

A very superficial day. It may not be possible for you to penetrate to anything remotely meaningful or moving. Perhaps a sense of the artificial, the repetitive, the senseless. You can't seem to get beneath the surface.

Sun Square Pluto

You may find yourself at odds with those around you or with your life situation regarding issues of great sensitivity -- very personal. Difficulties, blocks, and all manner of hot spots may be discovered and have to be worked through.

Moon Square Pluto

You can really communicate and convey yourself to others right now. You have a lot of energy and come across as assertive and dominant.

Mars Conjunct Ascendant

New visions, sudden insights are possible into your self-image or into your ideals and dreams. A time to reshape and renew your philosophy or religion, when your imagination is at full tilt. Breakthroughs in compassion and communion.

Uranus Trine Neptune

Power struggle may well be the key word here. You could find yourself pushing against a need for greater sensitivity and inner growth. Push could come to shove, and you may end up driving against your inadequacies and vulnerability.

Pluto Square Mars

You value what is aboveboard and straightforward and have a particular aversion to what is secret, intense, and private. You do not enjoy gossip or nosy neighbors just now.

Venus Square Pluto

Your manner may not be warm or loving at the moment. Perhaps not the best time to present yourself to others or take a job interview.

Venus Square Ascendant

A natural transformation of your values, the way you appreciate and love yourself and others, is taking place. You may cease to waste time (and money) in acquiring that which is worthless, and develop an eye for that which is lasting and worthwhile.
