Relocation Highlights:

Becoming deeply attached to others is a strong tendency. You give complete devotion and loyalty to a friend or marriage partner. However, you are sometimes too concerned with what you have given and selfishly await what you consider equal favors.

Moon in 8th House

A drive for achievement, power, and prominence in society is strong. Your career is your primary form of self-expression. You are ambitious and discipline yourself in order to accomplish the goals and objectives you set for yourself.

Sun in 10th House

You enjoy traveling and learning a wide variety of things. You are philosophical, broad-minded, and have little patience with details. Politics, education, and other areas of general information also interest you.

Mercury in 9th House

You like to dress up for public events, and you relate to people harmoniously and diplomatically in public, professional, or business situations. Consequently, you attract benefit and success in career. You are also formal in personal relationships.

Venus in 10th House

You are active in groups, clubs, organizations, and businesses. You perform well in administrative or cooperative positions. You urge the group or club to greater achievements and take pride in a collective effort.

Mars in 11th House

You probably are a member of several clubs or organizations. You need to feel a part of larger social movements, and you find much happiness and fulfillment in participating in these activities.

Jupiter in 11th House

You are a responsible, determined worker. You take your work seriously, and you perform your tasks very thoroughly. You often feel that if you want a job done right, you will have to do it yourself, while co-workers may feel you are too demanding.

Saturn in 6th House

Exciting sports and creativity are enjoyable. You like to express yourself spontaneously and individualistically; for example, you would prefer to learn painting, music, etc. by experimentation and instinct rather than formal training.

Uranus in 5th House

Helping people with their emotional and psychic needs is one of your aspirations. Practical chores do not hold your attention, and consequently you do not perform most jobs very well. Psychology, healing, welfare work, and ministry are good areas.

Neptune in 6th House

You have a deep inner yearning to have a successful career. You may not express this feeling often with others, but you quietly, deliberately, and persistently pursue your goals of success and power.
