It has been easy to run aground lately just as you thought you were underway and bound for deep water. It would appear, however, that you've found all the sandbars and now only the channel lies ahead. Nevertheless, don't steam ahead as if there is no tomorrow until you're sure you've got a good grip on the wheel and all the fog has lifted. This is particularly true as new vistas open up, and you will not want to have to make a major course change in order to steer toward a more bountiful horizon. Cautious moves now enable more emboldened ones in the near future.

Mars hesitating and then turning on your Ascendant tends to give a push that can be a ride or a fall, depending on how well-prepared you are. Expect a period of elevated energy, when you feel propelled on by an extra shove, but don't let that inadvertently shove you into oncoming traffic or rashly into a situation you should have stayed out of. It's easy to encounter, or be, a hothead, so remember that cooler heads are always the best to prevail, so let them. However, this is ideal for high-energy output, just look before you leap and don't get overtaken by the tide.

Sometimes assumptions about those most close to you can turn out to be misperceived, and the next three weeks gives you a chance to take a second look. You can nip problems in the bud and smooth potentially ruffled feathers, including your own, where things have been taken for granted and are slowing down progress. Mending ties to others can make for stronger relationships if you are ready to address small problems and so prevent them from growing. In the same way, good fences make good neighbors, and keeping your own integrity may be part of it, so don't do others' jobs, but let equality have play.

Mercury Stationary Direct in 07th House

As you turn the corner toward clarity after a few weeks of unasked-for change, you realize that no one was to blame. What seemed like mistakes were simply different roads to the same destination and it's clear that keeping your eye on the ball and not on the pitcher is the only way to go. Resolving differences is the surest way to a strong partnership, especially when driven by a common goal. You can look forward to a backward look that may give you a boost in the coming month or so, so keep those eyes in the back of your head wide open. Tomorrow's prize lies in the hand of another, so be ready to shake it.

If you thought you had your rep sewed up, break out the sewing machine. Venus in a fallback on your MC means there are some frayed edges in what you'd like the world to know about you that had best be patched up. It's not so much repair as reformation, as maybe you weren't going for what you really wanted to begin with and you need to reshape your reputation in the image of your newly formed desires. Tune into the pipeline where stories about you are concerned and edit the storytellers. If you know what you want said, you can write the book -- now's the time to spend the time.

Portraying your overarching vision to others may have been hampered of late by uncertainties about just what that vision is. Once you have reconsidered where you'd really like to go, it's time to pick up speed and cut a broad swathe through life. You can pick up momentum by cutting away distractions and making a firm thrust in the direction of your choice. Knowing what you want involves knowing what you don't, but you needn't be too specific to begin with. You can iron out the details later, now is the time to point and go. Decide which way your future lies, then release the brakes.

Venus shoving off into its new path right on your Midheaven is a bounteous gift to your reputation and career efforts, and the good things you hoped would be said about you actually start to circulate. However, don't waste time basking in the limelight, but get in there and make hay while this sun shines -- as this, too, will pass. Now is the time to trade on your elevated status -- the chance to rise up into the higher atmosphere in the coming months. Listen carefully to others, however, to be sure that you are indeed fulfilling their expectations.

Sometimes when you choose to lean on friends, you find they're leaning on you already, and then everybody gets confused. The next three weeks give you the chance to discover and

address this kind of situation so that good feelings remain all around and everyone is back on a mutual course. One reason this can happen to begin with is that you may have been paying too much attention to your own goals and aspirations and lost track of your personal support grouping. A little healthy self-introspection may help your own ambitions find better focus and general support where you can most rely on it.

You may have found the last few weeks have required you to spend some time pinning down just who your real friends are. Misplaced expectations can make for delay, but once you've separated the wheat from the chaff you'll have a better idea of who is really in the game. Now is the time to nail down those connections who had been hovering in the wings, time to get the message through to the ones who matter. That's important because you may soon need a shoulder to lean on, or at least a reliable counterpart who can help provide focus and serve as radar when the fog rolls in.
