## The Summer Solstice

The Summer Solstice, or Midsummer's Night, is the longest day of the year and the point when nights slowly begin to grow longer. It is a time to enjoy life and take notice of the world around you.

## Frederick Chopin: The Summer Solstice in Your Chart

New developments in career matters may have you quite wound up for a couple of days and the pressure to produce can be intense. Too many things happening at once make it hard to keep track of things, but you can't afford to leave anything out. It is as important to listen at this time as to act. What people are saying to you and about you very much reflects your personal and professional status and you will want to make sure that you are being represented honestly. If you give your resumé a second look, you'll find there are new things to say about yourself that need to be included. Taking a fresh stance can put you into new places, move you up a notch.

*Moon in 10th House*

You may be sought after for your advice and counsel regarding personal and emotional issues. You will be able understand and handle this very volatile material. You are able to cut through the red tape and get at what is beneath and behind.

*Moon Trine Pluto*

You may find yourself looking for a little romance today or at least enjoying some emotional release. You can appreciate feelings and movement. You may want to just get out and walk or exercise.

*Venus Sextile Mars*

New visions, sudden insights are possible into your self-image or into your ideals and dreams. A time to reshape and renew your philosophy or religion, when your imagination is at full tilt. Breakthroughs in compassion and communion.

*Uranus Trine Neptune*

Power struggle may well be the key word here. You could find yourself pushing against a need for greater sensitivity and inner growth. Push could come to shove, and you may end up driving against your inadequacies and vulnerability.

*Pluto Square Mars*

You may experience dissatisfaction with what you have or what you find around you. You could feel unloved or you yourself may be unloving.

*Venus Square Venus*

You could find yourself mentally acute and in a problem-solving mood. However, there is a real possibility that the decisions you make today, and the solutions you find, may have to be re-done tomorrow.

*Mercury Square Jupiter*

A natural transformation of your values, the way you appreciate and love yourself and others, is taking place. You may cease to waste time (and money) in acquiring that which is worthless, and develop an eye for that which is lasting and worthwhile.

*Pluto Sextile Venus*

You may find yourself having emotional differences with someone. Those around you, or the situation you find yourself in, may not feel right to you. You could be challenged.

*Moon Opposite Moon*

Your mind may be very clear now and your thoughts in sharp focus. It is easy to organize your thoughts, and communication of all kinds is furthered. Write that book, take that course. Your thoughts count now, so use your mind. Communicate.

*Saturn Trine Mercury*

A touch-and-go time for your emotions and the environment in which you find yourself. You may be up against it for a while, as things get tight and progress is slowed. Your emotional life may slow to a trickle or be blocked completely. Patience.

*Saturn Square Moon*
